

Galaxy Girl

A song by Sarah

Verse

I just wanna stay with you tonight
Hold me close girl hold me nice and tight
I don't care who sees- just let us be
Go to your place for no company

Pre chorus

On the way
You hold my hand,
Sparks fly
Like the very first time

I love you so
But you really don't know
I'll tell you soon
But the timing ain't right

Chorus

Once upon a time I met this girl
Her skin was like velvet, her hair was curled
Her eyes were dark,
But also bright
She glowed like stars
In the dark dark night

If only she knew
I'd say...
'I'm falling for you'

Verse

We get to yours and you turn on the light
(Oh woah oh ho, oh woah oh ho)
I look at you and oh this feels just right
(Oh woah oh oh oh oh oh ho)
Wrap me in your arms so nice and warm
(Ahh ahh ahh, ahh ahh ahh)

You open your mouth and my world is just transformed
(Ahh ahh ah ah ah ah ah- extended ahs)

Pre chorus

You say 'I love you'
There and then
Those three words
Go through my head

I've known I've loved you
For some time
So I say it back
And your smile's so wide

Chorus

Once upon a time I met this girl
Her skin was like velvet, her hair was curled
Her eyes were dark,
But also bright
She glowed like stars
In the dark dark night

Finally she knows
So the rest of this song goes,

Bridge

She knows, she knows,
she knows, she knows
She knows just how I feel for her
And lucky for me, lucky for me
She feels the same now I can be

Chorus

Once upon a time I met this girl
Her skin was like velvet, her hair was curled
Her eyes were dark,
But also bright
She glowed like stars
In the dark dark night

Once upon a time I met this girl
She was the best in the whole wide world
She loves me so
And I love her too
Life just feels too good to be true

Outro

But I pinch myself, this is real
I've got myself the real deal
